JACKSON CLIENT SOLUTIONS LLC

CAPABILITY STATEMENT
October 2026

INDEPENDENT OPERATIONS, INVENTORY & ACCESSIBILITY ASSESSMENTS

Adriana P. Jackson, MBA | Founder & Principal
MBA, IT Management | CompTIA Security+ | ISC2 CC

SDVOSB | WOSB | VOSB | TEXAS HUB

ASSESSMENT ONLY. Jackson Client Solutions is an independent governance, risk, and compliance (GRC) assessment firm. We measure how operations, inventory, assets, and digital services perform against client requirements and recognized standards, and report findings ranked by impact. The client's own team makes the changes. We do not sell software, equipment, labor, or remediation, so our findings are not tied to follow-on work.

01 CORE COMPETENCIES

Operations & Inventory Assessments

- **Warehouse and distribution process assessments**, receiving through shipping
- **Inventory accuracy verification**: sample-based inventory audits against system records
- **Asset verification**: IT and physical assets, with management reports
- **Lean waste and efficiency assessments**: flow, labor, damages, and rework
- **Independent follow-up verification**, quarterly or as scheduled

Digital Accessibility Assessments

- **Section 508**, **WCAG 2.1 and 2.2 AA**, and **ADA Title II** web and mobile assessments
- **Document assessments**: PDF (PDF/UA), Word, and fillable forms
- **VPAT® / ACR authoring** written from our own testing, and independent retests

02 DIFFERENTIATORS

- **Assessment only.** We do not remediate, implement, or resell anything we assess.
- **Executive view and floor view.** Founder is a former distribution center Lean Champion who led the internal audit team, a federal IT asset management specialist, and a U.S. Air Force NCO.
- **Set-aside eligible.** SDVOSB sole-source and set-aside, WOSB set-aside, VOSB, and Texas HUB.
- **Fixed-price and deliverable-based.** Defined scope and deliverables. Findings are reviewed with the client before the final report.

03 METHOD

Scoping and data request, on-site observation and sample-based verification (or automated and manual testing for digital work), findings review with the client, then a final report and briefing with findings ranked by impact. Optional independent follow-up verification. On site across Dallas-Fort Worth; travel nationwide; digital assessments delivered remotely.

04 KEY PERSONNEL EXPERIENCE

Adriana P. Jackson, MBA, Founder & Principal

- **Kenco Logistics**, 2013 to 2014. Site Lean Champion at a distribution center who led the internal audit team; built KPI reporting and verified it through daily floor observation.
- **U.S. Small Business Administration**, IT Specialist (Hardware & ITSM), 2023 to 2025. Enterprise inventory database deployment, asset lifecycle management, and QA and compliance SOP authoring.
- **U.S. Census Bureau**, IT Office Operations Supervisor, 2020 Census. Mobile device deployment and endpoint security.
- **U.S. Air Force**, F-15 Weapons Load Crew NCO, more than six years. Asset management and physical security. Held a Secret clearance.
